---	-------------------------	--

Residents should immediately evacuate to higher ground or Tsunami Evacuation Area when a strong earthquake or a weak earthquake with long tremors is felt. Check the Tsunami Evacuation Area on the "Earthquake and Tsunami Evacuation Map" for each district.

*Tsunami Damage Danger Zone

These areas were designated by the Governor of Aichi Prefecture on July 30, 2019, based on the Act on Tsunami Disaster Prevention Area Development. These are areas where there is a risk of danger to the lives or bodies of residents in the event of the largest class of tsunami. They are designated for the purpose of preventing human damage caused by tsunami.

*Reference Water Level (m)

The reference water level is based on the backwater height of tsunami caused by a collision with a building, etc., and is displayed as the height from the ground elevation.

*Tsunami Evacuation Zone

Areas designated by the city, school zones, and community associations as areas with potential for damage from flooding in consideration of the estimated tsunami inundation area and past tsunami disaster history (Estimated tsunami inundation areas of Tahara City "Survey on Tsunami Damage by M9.0 of Tokai / Tokai-Nankai / Nankai Earthquake").

*Landslide Danger Stream

Mountain streams that has the potential to cause landslides with damage to more than 1 house.

*Steep Slope Locations with Potential Danger

Steep slope with greater than 30-degree inclination and greater than 5 meter height with more than 1 house in the potential damage zone.

*Landslide Damage Danger Zone

Area with steep slope that when destroyed by disaster may endanger the health and lives of the residents.

*Landslide Damage Special Danger Zone

Areas in the Landslide Damage Danger Zone in which damaged structures may significantly endanger the health and lives of the residents.

*Emergency Transport Road

Roads that link major disaster prevention points such as City Hall and which are designated by the prefecture to be used for emergency transport. Use of these roads may be restricted in the event of major disaster.

*Support Station for Individuals Returning Home on Foot

Entities that are entered into the Agreement Related to the Support of Individuals Returning Home on Foot During Disaster with Aichi, and which in the event that transportation becomes unfeasible offer water, restroom facilities, and road information to individuals returning home on foot. Stores offering such services have stickers posted. (There may be cases in which stores are closed and services not provided.)
